About SandCastle™

Nonfiction books for the beginning reader

- Basic concepts of phonics are incorporated with integrated language methods of reading instruction. Most words are short, and phrases, letter sounds, and word sounds are repeated.
- Book levels are based on the ATOS™ for Books formula. Other considerations for readability include the number of words in each sentence, the number of characters in each word, and word lists based on curriculum frameworks.
- Full-color photography reinforces word meanings and concepts.
- “Words I Can Read” list at the end of each book teaches basic elements of grammar, helps the reader recognize the words in the text, and builds vocabulary.
- Reading levels are indicated by the number of flags on the castle.

SandCastle uses the following definitions for this series:

- Homographs: words that are spelled the same but sound different and have different meanings. *Easy memory tip: “-graph”= same look*
- Homonyms: words that are spelled and sound the same but have different meanings. *Easy memory tip: “-nym”= same name*
- Homophones: words that sound alike but are spelled differently and have different meanings. *Easy memory tip: “-phone”= sound alike*

Look for more SandCastle books in these three reading levels:

Level 1
(one flag)

Grades Pre-K to K
5 or fewer words per page

Level 2
(two flags)

Grades K to 1
5 to 10 words per page

Level 3
(three flags)

Grades 1 to 2
10 to 15 words per page

Note: Some pages in this book contain more than five words in order to more clearly convey the concept of the book.

Homophones

hair

hare

Homophones are words that sound alike but are spelled differently and have different meanings.
